## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim 1 is rejected under 35 U.S.C. 102(a) as being anticipated by Japanese Publication P2001-29113A. The patent discloses in Fig. 2 a "surgical plate" comprising a first series of rings 6 and 7. There is a "plate" connecting the first series of rings 6 and 7. A second series of rings is monolithic and separated by a connection plate 3. There is an intermediate series of balls 2 and cylindrical arms. Fig. 3 better illustrates the balls and cylindrical arms.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Christensen (US 3,488,779), Sanders (US 5,54,194), Manolidis (US 6,060,641), Saurat et al. (US 6,296,644), and Giovannone et al. (US 2003/0108845).
